THE highest price, in Cash, given for clean *Linnen* and *Cotton Rags*, at this Office.

Latest from England.

From the New-York Gazette, July 19.

The sch'r Edward, Thomas, 15 days from Barbadoes, arrived yesterday at the quarantine ground. By this vessel the Editors of the New-York Gazette have received Barbadoes papers to the 2d inst. containing extracts from London papers from the 8th to the 23d *May*. The articles which we have copied are the most important.

The London papers speak of a probable change in the ministry, in which the duke of Portland, Earl Camden, and Lord Mulgrave, will be succeeded by Earl Camden, and Lord Mulgrave, will be succeeded by Earl Grey, the duke of Bedford, and Mr. George Ponsonby.

The British Naval force in the Baltic has been considerably augmented. Rear Admiral Picknore, in the St. George, has been sent to join Sir James Saumarez on that station.—Some operations of great extent were expected to be carried on immediately against Russia, in the event of her in taking part against Austria; which England hoped to deter her from; and in order to conciliate her, the Russial Admiral Siniavin, and the crews of the squadron, pledged by the convention of Cintra, have been sent home.

Bridgetown, (Barbadoes) June 27.—A large mass of intelligence has been received since our last, brought in duplicate by the Adrian cutter, 34 days from Plymouth, charged with naval dispatches; and by the Despatch three-masted sch'r Packet, in 31 days from Plymouth, with the second mail of *May*, both arrived on Sunday.—Our selection from the London papers (up to the 22d inclusive) enters so fully into the sanginuary events passing on the great threatre of war, now extended through the vast tract of the continent comprehended between the Baltic and Adriatic, that we need scarcely further touch upon them. It certainly is a melancholy task to record adversities—but it becomes a firm mind to meet calamities, rather than indulge fallacious hopes—for such only are now merely left the struggle of Austria, defeated and borne down by the overwhelming power of Bonaparte's armies, already again advanced to the capital of the Empire. No dejection, however, yet appears in the Austrian government; and it would seem that though the Usurper even enter Vienna in triumph, he may not altogether conquer the Empire, in many parts of which a popular feeling has been awakened that promises one general union for the salvation of the Country; and happy indeed shall we be, to announce that the tide of success has turned against the dire Tyrant.

The war in Austria, however, (and it is some consolation,) places Spain under the most auspicious circumstances; and aided by the Genius of Britain, the expulsion of the French from that important Country might reasonably be hoped for, did not the artifices of the modern Machiavels in the Usurper's train effect all the purposes of treason.

Portugal, presents, upon the whole an aspect more pleasing and prosperous. A great army, under a great Commander, is now in the very heart of the country, and with the British spirit following so close upon the heels of the retreating enemy, that long ere this we willingly persuade ourselves, that the subjugatory invaders have been completely conquered or expelled.

Our government for the assistance of Portugal, has granted a loan of 600,000l. to the Prince Regent, secured on the revenues of the island of Madeira.

The French government we find, have refused the exchange of the prisoners taken at *Martinique*; and in consequence they have been carried to England, the Belleisle and Ulysses, with several transports have arrived at Plymouth with them from Oberon Bay.

His majesty's frigate Alceme has been lost off Nantz, on the coast of France; and we further regret to state that, by accounts from Leeward, one of our frigates (supposed the Gloire) is on shore off *Mariegalante*, and is feared will be lost.

—

LONDON, *May* 19.—A Lisbon mail arrived late last night, and the Packet which brought it, brought also Gen. Sontag, with dispaches from Sir Arthur Wellesley.—They are said to contain an account of our army being within 24 hours march of Oporto. Soult had offered to capitulate on certain conditions, but which have been refused by Sir Arthur Wellesley. A battle was expected to take place on the 5th instant.

Sir Arthur's head-quarters were at Coimbra, where he had a force of 18,000 English troops, and 14,000 Portuguese. Soult had evacuated Oporto, and had marched to Amarante, where he had been several days fighting with the Portuguese troops under the command of gen. Liveras, in which the French were beaten in every action. There are about 3 or 400 French troops in the garrison of Oporto.

The papers brought by the mail are to the 5th. They state that the first division of the British army entered Coimbra on the 30th ult. which is about 30 miles from Oporto—they were received with the loudest acclamations. Whilst the British were advancing against Soult, who had lost all hopes of being relieved from his perilous situation by marshal Victor, a division of 9000 Spanish troops had entered

Doct^r ROBERTSON'S

CELEBRATED

STOMACHIC ELIXIR OF HEALTH;

(Price One Dollar and Fifty Cents.)

Which has proved by thousands, who have experienced its beneficial effects, to be the most valuable medicine ever offered to the public, for speedily relieving and curing the cramp, pains, and wind in the stomach and bowels, carrying off superfluous bile, removing habitual costiveness, sickness at the stomach, severe head ache, &c.

For the dysentery or lax, cholera morbus, severe gripings, and other diseases of the bowels, and the summer bowel complaint in children, it has proved a certain remedy, and restored to perfect health from the greatest debility.

Persons afflicted with pulmonary complaints, or disorders of the breast and lungs, even in the most advanced state, will find immediate relief.

Common coughs and colds, which are generally occasioned by obstructed perspiration, will be found to yield to its benign influence in a few hours.

In asthmatic or consumptive complaints, hoarseness, wheesings, shortness of breath, and the hooping cough, it will give immediate relief.

Doct^r Robertson's

VEGETABLE NERVOUS CORDIAL,

OR NATURE'S GRAND RESTORATIVE.

(Price One Dollar and Fifty Cents.)

It is confidently recommended, as the most efficacious medicine, for the speedy relief and cure of all nervous complaints, impurities of the blood, seminal weaknesses, and various complaints resulting from dissipated pleasures, residence in warm climates, the immoderate use of tea, the unskilful or excessive use of mercury, and diseases peculiar to females at a certain period of life.

Under the denomination of nervous disorders, in its full extent, are included several diseases of the most dangerous kind, and are so various that a volume would hardly suffice to complete a description of them. It pervades with its baleful influence the whole nervous system, writhing the heart with inexpressible anguish, and exciting the most dreadful suggestions of horror and despair. To this demon have thousands fallen a sacrifice, in the direful transports of its rage.

The most common symptoms at its commencement, are weakness, flatulence, palpitations, watchfulness, drowsiness after eating, timidity, flashes of heat and cold, numbness, cramp, giddiness, pains in the head, back, and loins, hickup, difficulty of respiration and deglutition, anxiety, dry cough, &c.

Since doctor Robertson's first discovery of this invaluable medicine, upwards of *two hundred thousand persons* have experienced its happy and salutary effects, many of whom had been reduced to the last stage, and given up all hopes of recovering.

DrRobertson's

PATENT

STOMACHIC WINE BITTERS.

(Price One Dollar.)

These celebrated and well known Bitters, are composed purely of vegetables of the most innocent yet specific virtues, and are particularly recommended for restoring weak constitutions, cleansing and strengthening the stomach, and increasing the appetite; they expel worms in all ages, but from their simplicity and safety, are a most natural and effectual vermifuge, when administered to children; they are gratefully warm, and pungently aromatic; they are extremely serviceable in all seasons, but particularly so on the approach of warm weather, when bilious habits experience such total loss of appetite; they are also a certain preventative against those complaints so common in the spring and fall seasons, such as intermittent fevers and agues, long autumnal fevers, dysenteries, &c.

They possess moreover the property peculiar to themselves, of qualifying and ameliorating those inflammatory pernicious qualities inherent in ardent spirits, and so often fatal when taken upon an empty stomach, and converts them into a wholesome, pleasant, and invigorating stomachic.

From their celebrity as an antidote against the scurvy, they are particularly calculated for seafaring persons, to whose attention they are particularly recommended: they are a very pleasant cordial bitter, and are recommended for the use of taverns, as well as private families.

Doct^r ROBERTSON'S

GOUT & RHEUMATIC DROPS.

Preice Two Dollars.)

A safe and effectual cure for the gout, rheumatism, lumbago, stone and gravel, gleets, swellings and weakness of the joints, sprains, bruises, and all kinds of green wounds—the cramp, pains in the head, face, and body, stiffness of the neck, chilblains, frozen limbs, &c.

Since the above invaluable medicines were first discovered by doctor Robertson, upwards of *seven hundred thousand persons* have experienced their happy and salutary effects, many of whom from the greatest debility.

Therefore every family, particularly those who live at a distance in the country, should be provided with a supply of the above medicines, which, by being timely administered, will prevent the progress of many fatal diseases.

The proprietor wishes to afford every information relative to the efficacy of the above medicines in a small compass, by exhibiting a list of exemplary cures, attested by respectable characters, for the satisfaction and encouragement of the afflicted, for which purpose such cures have been selected at different times and been inserted, as might display the alternative power of physic. But as the number of cases are now becoming so numerous, I am obliged, instead of indentifying the particulars, only to print an abstract of several testimonials, referring the reader to peruse the pamphlet, accompanying the medicines, where the certificates are published at full length, and the striking facts relative to these medicines are enrolled more minutely.
